

## SCV printed grilles

**MADEL**<sup>®</sup>

The **SCV** series grilles have been designed to be used in heating, ventilation and air-conditioning units.

They are used for extraction and supply of air in large areas, car parks or domestic installations.

**SCV**

**CCV**

**(T) Fixing system**

**CLASSIFICATION**

**SCV** Grilles with blades parallel to the longer side.

**CCV** Grilles with blades parallel to the longer side. It incorporates a volume control damper with an easy external key.

**MATERIAL**

Galvanised steel grilles.

**FIXING SYSTEMS**

**(T)** The grille is fixed in place with screws.

**FINISHES**

**M9006** Lacquer in metallic grey colour, similar to RAL 9006.

**M9016** Lacquer in white colour similar to RAL 9016.

**RAL...** Lacquer in other colours (RAL specifications).

FREE VELOCITY, PRESSURE LOSS AND SOUND POWER LEVEL.

RECOMMENDED VELOCITY.

Vmin m/s	Vmax m/s
2	3.5

Determination of air flow.  
Measuring the Vf in different points of the grille, we find the Vfmed.

$$Q \text{ (l/s)} = V_{\text{fmed}} \text{ (m/s)} \cdot A_{\text{free}} \text{ (m}^2\text{)} \cdot 1000$$

$$Q \text{ (m}^3\text{/h)} = V_{\text{fmed}} \text{ (m/s)} \cdot A_{\text{free}} \text{ (m}^2\text{)} \cdot 3600$$
